

mgr Adam Strzelecki (Ph.D. student)

Faculty of Physics, Astronomy and Applied  
Computer Science Jagiellonian University,  
ul. Reymonta 4 30-059 Kraków Poland

email: adam.strzelecki@uj.edu.pl

Dear Organizers,

I am a Ph.D. student in Applied Computer Science at the Faculty of Physics, Astronomy and Applied Computer Science, Jagiellonian University in Kraków, Poland. My subject of work was automating the analysis of the ground mounted LIDAR scans data in forestry. As this involved a large amount of numeric computations I started learning SSE technology available on modern CPUs. When another Ph.D. student wrote a Monte-Carlo simulation code for statistical physics on GPU, my supervisor prof. Piotr Białas asked me to write a fast CPU version for a fair comparison. This comparison is the subject of the poster that we have submitted to Your conference.

I would like very much to attend this conference to see the state of the art in multicore/vector computing. Unfortunately the Faculty cannot cover all of my travel/living expenses and I would like to ask You to provide me with some form of financial support enabling me to attend the conference.

With my best regards

Adam Strzelecki
